TFEC9 Okinawa: Possibility of schedule change due to typhoon

Dear Presenters and Participants of TFEC9,

Thank you for your contribution to TFEC9.

According to the latest weather forecast, the typhoon is likely to approach very close to the Okinawa Island on Oct. 28 (Sat).

In the worst case, the conference venue (Okinawa Convention Center: OCC) will be closed on Oct. 28 (Sat). In that case, we have to compress everything into two days. Namely, the time frame for each presentation will be reduced from 15 minutes (i.e., 12 min presentation + 2 min discussion + change over) to 10 minutes (i.e., 8 min presentation + 1 min discussion + change over); I will also request our Plenary speakers to reduce their presentation time from 40 minutes to 35 minutes. The attached image (next page) is a tentative version of the shortened schedule that may be used in this worst case.

Whether or not OCC will be closed on Oct. 28 (Sat) will be decided by OCC, at latest, by 15:00 of Oct. 27 (Fri). I will inform you as soon as the final decision is made.

Presenters:

I would recommend you to prepare a shortened version of your presentation, too, to prepare for the worst case. If you do not know how to shorten your 12 min presentaion to 8 min, just cut Introduction and start from Objectives.

Those who happen to be unable to come to Okinawa:

Please contact us **after** the conference because our first priority is the on-site operation and we will be unable to reply to individual e-mails until the conference period is over. Please understand that TFEC9 is operated by very few volunteers including myself.

Best Regards,

Koji Fukagata

TFEC9 Secretary General

Important notice:

The tentative timetable on the next page will be applied **only in the worst case** where the Okinawa Convention Center (OCC) is closed throughout Oct. 28 (Sat).

Whether or not OCC will be closed on Oct. 28 (Sat) will be decided by OCC, at latest, by 15:00 of Oct. 27 (Fri). I will inform you as soon as the final decision is made.

OS Timetable in case of suspension due to Typhoon on Oct. 28
